PULSAR + APOLLONIAN

Martina Nevistić

01.12., 20:00h, Kino Urania

CALL FOR ARTISTIC RESEARCH PROPOSALS

a.pass (advanced performance and scenography studies) is an artistic and educational research environment that welcomes research practitioners, from all professional backgrounds in an international self-organized, collaborative and trans-disciplinary program. a.pass includes two complementary structures that operate in parallel and in dialogue: the Postgraduate Program and the Research Center.

This call for applications is inviting researchers who would like to start or continue a research trajectory within an experimental and professional artistic research environment. a.pass offers a one-year post-graduate program or a one-year Associate Researcher affiliation where researchers can develop research proposals in a collective, supportive environment independent from production constraints.

a.pass welcomes proposals which are directly situated and working within existing communities. We strive to develop a greater network between existing communities and become a hub for research methodologies that are grounded and productive in existing contemporary struggles.

DEADLINE: 15.01.2022.
